Join dynamic education expert Mark C. Perna as he unveils the **groundbreaking innovations** and strategies that are changing the education and workforce development paradigm nationwide. Mark will share how the single most important competitive advantage in today's workforce is the synergy of **academic knowledge** and **technical skills** — and how you can help students achieve it. Show your students why **education matters**, motivate them to set goals and help them **achieve at a higher level**. View highlight clip at www.csiu.org/perna

Path to Careers helps business and education connections happen — effectively and efficiently. Businesses easily register with information highlighting who they are, what they do and how they'd like to connect with schools and students by offering career awareness experiences. Schools register so educators and students can learn about local businesses by entering their world and experiencing what it's like to work for that company and learn about the skills needed as students navigate their paths to careers.

PATH to CAREERS
